

Your Turn: Story Maths

Read each story and use the counters to act it out. Then record how many with a numeral.

1 Some hop away

The crossed-out counters have hopped away. Write how many are left.

Eight kangaroos drank at the river. Three hopped away.

Six ducks swam in the pond. Two waddled off.

2 Some more arrive

Join both groups. Count or subitise, then write how many altogether.

Four galahs sat in a tree. Three more landed.

Five frogs sat on a log. Two more hopped on.

3 Draw and record

Nine kangaroos were resting. Four hopped away. Draw a cross on the four that hopped away, then write how many are left.
