

Your Turn: Share It Fairly

Share the fruit equally, deal the cards to each player, and count to check that everyone gets the same.

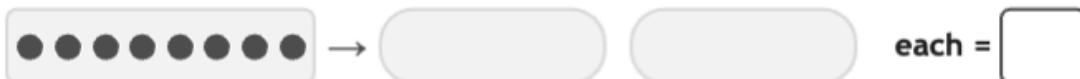

1 Share the fruit

Share the fruit equally onto the plates. Write how many each person gets.

Twelve grapes, four people.

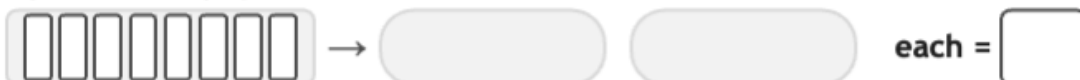

Eight pieces of fruit, two people.

2 Deal the cards

Deal these cards equally to the players. Write how many cards each player gets.

Eight cards, two players.

Six cards, three players.

3 Count and check

Two players were dealt these hands. Count each hand, write how many, then tick if the hands are equal.

Equal?

☐
