

# Share It Fairly

Role-play equal sharing with materials. Share a bunch of grapes between four people and talk about how you know it is fair – then deal the same number of cards to each player and count each hand to check they match.

## Share the grapes between four people

*“Twelve grapes shared between four people – how do we know it is fair?”*

Each plate has the same amount – three grapes each – so the share is fair.

## **SPOTLIGHT** Deal, then count to check

Each player is dealt the same number of cards. Count each hand to be sure they match.

### Share the fruit

Give each person a piece in turn until the fruit is gone.

### Deal the cards

Deal one card to each player, round and round, until none are left.

### Count to check

Count each share or hand to make sure they are all the same.
