

Your Turn: Share & Group

Share the counters equally onto the plates, or circle equal groups. Then count or subitise and write how many.

1 Share them equally

Share the counters equally onto the plates. Write how many on each.

Six counters, two plates.

Eight counters, four plates.

2 Make equal groups

Circle groups of the same size. Write how many equal groups.

Circle groups of 3.

Circle groups of 2.

3 Share the story

Ten counters are shared equally onto two plates. Draw the counters on each plate, then write how many on each.
