

Read & Write Numerals on Objects

Spot and read numerals on familiar objects – in story books, signs and labels – then write a numeral to label how many objects a container holds.

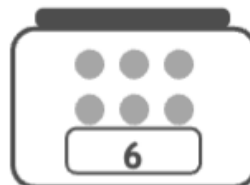

Read numerals around us

Find and read numerals in story books, signs, calendars and doors.

Write numerals to label

Count the objects, then write a numeral on the container as a label.

Worked example

Count 6 blocks into the jar, say “six”, then write 6 on the label.

- 1 Count 2 Say 3 Write

Look for

Correct numeral formation, matching the numeral to the count, and reading numerals found on everyday objects.
