

Grouping Numbers on Country

Explore number groupings from First Nations Australians' counting systems. Group a collection in different ways to form and partition numbers, then quantify natural objects on Country and Place up to ten.

Count in groups of two

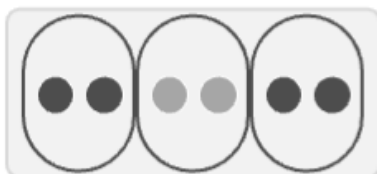

four groups of two

Grouping in twos helps us form and partition eight — four twos make eight.

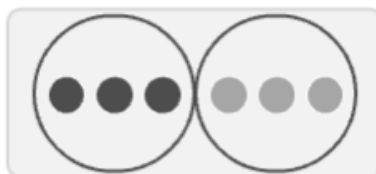

SPOTLIGHT

One number, grouped many ways

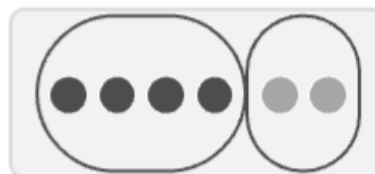

The same six, represented with different groupings.

three groups of two

two groups of three

a four and a two

Collect on Country

Gather a small collection of natural objects on Country or Place.

Group to count

Arrange the collection into groups of two to find how many.

Show another way

Represent the same collection with a different grouping.
