

Show & Name the Parts

Partition a collection of up to ten, then show and name each part with counters, ten-frames and fingers. Subitise the parts, name how many are in each, and combine them back into the whole.

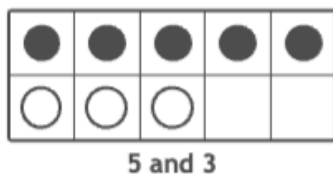

Split the group, name each part

Nine splits into six and three — subitise each part, then combine to nine.

SPOTLIGHT Parts can be more than two

The same whole, eight, shown on a ten-frame and split into parts.

Show with fingers

Hold up a whole on two hands, then name each hand's part.

Split on a ten-frame

Place counters, then partition them into two named parts.

Break three ways

Partition a collection into more than two parts and name each.
