

Heavier or Lighter?

Heft two pantry objects — one in each hand — to feel which is heavier or lighter. Then line up the same two objects to compare which is longer or shorter.

Heft it

Hold one object in each hand and feel which pulls down more.

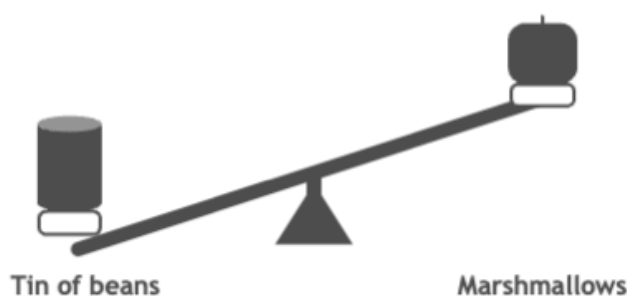

Line it up

Line up the same two objects to compare longer or shorter.

Talk it over

"The tin is heavier, but the packet is longer."

Heft the two objects — which one is heavier?

"The tin is heavier — but the packet is longer."

Modelling routine

1 I do

Heft a tin and a packet — say which one feels heavier.

2 We do

Line up the same two objects — which one is longer?

3 You do

Children compare a pantry pair and discuss both ways.
