

Name, Sort and Make Shapes

Meet the four familiar shapes — circle, square, triangle and rectangle. Name each one, sort a mixed set into groups, then find the same shapes in objects around the room.

Name it

Point to each shape and say its name out loud.

Sort it

Put the shapes that are the same into one group.

Find it

Spot the same shapes in things around the room.

The four shapes we name and sort.

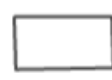

Circle

Square

Triangle

Rectangle

Modelling routine

1 I do

Hold up a circle and say "this is a circle — it is round".

2 We do

Sort the shapes together and say why each group belongs.

3 You do

Children name, sort and point out shapes in the room.
