

Your Turn: Count It Right

Count each object once and write how many. Remember: the last number you say tells how many.

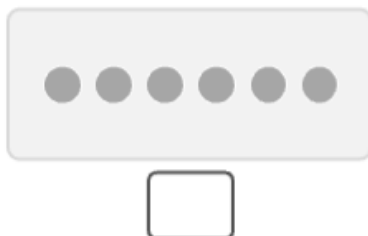

1 Touch and count

Touch each object once as you count. Write how many in the box.

2 Same amount?

Count both groups. They are moved around. Write how many, then tick if they match.

=

same

3 How many? Circle it

Count each group. Circle the last number you say.
