

Your Turn: Count on Your Body

Point to one body part for each number. Count carefully – one part, one number – all the way to twenty.

1 Touch and count

Touch each fingertip once as you count. Write how many in the box.

2 Count to twenty

Fill the empty body points so the count goes 1 to 20.

3 Match the count

Count the body points on each strip. Draw a line to the numeral.

1234	•	•	2
12	•	•	5
12345	•	•	4
