

Humans Are Animals Too

Humans are animals. Name the external features of a human — eyes, arms and legs — then compare them with the features of another animal.

Name

Name a human's external features.

Compare

Look at another animal and compare.

Talk

Say what is the same and different.

A human and an animal — same and different.

human

both have eyes and legs

dog

Modelling routine

1 I do

Point to my eyes and say "a dog has eyes too".

2 We do

Compare human and dog features together.

3 You do

Children name shared and different features.
