

Observe and Group Living Things

Look closely at plants and animals and name their external features – leaves, eyes and wings. Then group living things by the features they share.

Observe

Look closely at a plant or animal.

Describe

Name the features you can see.

Group

Put living things with the same feature together.

External features we can observe.

leaf

flower

eye

wing

Modelling routine

1 I do

Point to a leaf and say "this is an external feature".

2 We do

Name the features on an animal together.

3 You do

Children observe features and group living things.
