

Objects Are Made of Materials

Objects are made from materials such as wood, metal, plastic and glass. Look closely and describe what you can see, feel and notice about each material.

Look

Look at what an object is made of.

Name

Name the material – wood, metal, plastic or glass.

Describe

Say if it is hard, soft, shiny or rough.

Everyday materials we can name.

wood

metal

plastic

glass

Modelling routine

1 I do

Hold a wooden block and say "this is wood".

2 We do

Name the materials in classroom objects together.

3 You do

Children name and describe materials they find.
