

Sort Materials by Property

Sort and group materials by the properties you can observe – colour, hardness, texture and flexibility. Put materials that are alike into the same group.

Observe

Look at and feel each material.

Choose

Pick a property such as hard or bendy.

Group

Put materials with that property together.

Properties we can sort materials by.

hard

soft

shiny

bendy

Modelling routine

1

I do

Sort a hard block and a soft cloth.

2

We do

Group materials by colour and texture together.

3

You do

Children sort materials by a property they choose.
