

What Is It Made Of?

Handle everyday objects to work out which materials they are made of. Notice that some objects, like a saucepan or a pencil, are made from more than one material.

Hold

Pick up an object and feel it.

Find

Work out which materials it is made of.

Count

See if it uses more than one material.

Objects and the materials they are made of.

window
glass

spoon
metal

book
paper

pan
metal + wood

Modelling routine

1 I do

Hold a spoon and say "it is made of metal".

2 We do

Find the wood and metal parts of a saucepan.

3 You do

Children name the materials in their objects.
