

Compare What We Found Outside

We compare, with guidance, what we observed about plants and animals in the field with what we predicted.

Predict

Say what we might find outside.

Explore

Observe plants and animals in the field.

Compare

Check what we found against our guess.

Things we look for

Plants

Animals

Same

Different

Modelling routine

1 I do

Model predicting what we might see outside.

2 We do

Observe and compare on our field walk.

3 You do

Children say if they found what they predicted.
