

Our Prediction and Observation Table

We use a provided table to draw or dictate our prediction and observation, then decide if they are the same or different.

Predict

Draw or say what we think will happen.

Observe

Draw or say what really happened.

Compare

Mark if they are the same or different.

Our table shows

Predict

Observe

Same

Different

Modelling routine

1

I do

Model filling one row of the table.

2

We do

Add our prediction and observation together.

3

You do

Children mark same or different.
