

Describe How Things Move

Watch how objects move — they can roll, slide, bounce or spin. Notice how the size, shape and material of an object change the way it moves.

Watch

Watch how an object moves.

Describe

Say if it rolls, slides, bounces or spins.

Compare

See how size, shape and material change it.

Ways that things move.

roll

slide

bounce

spin

Modelling routine

1 I do

Roll a ball and say "it rolls".

2 We do

Move objects together and name each movement.

3 You do

Children move objects and describe how they move.
