

Tools Help Us See More

We use tools like magnifying glasses, binoculars and cameras to observe plants and animals closely.

Look close

A magnifying glass shows tiny parts.

Look far

Binoculars help us watch animals.

Capture

A camera or video keeps what we saw.

Tools we can use

Magnifier

Binoculars

Camera

Video

Modelling routine

1 I do

Show how to hold and use each tool safely.

2 We do

Observe a plant or animal with a tool together.

3 You do

Children choose a tool and observe closely.
