

Compare Predictions and Observations

We help children look back at what they predicted and compare it with what they observed, with guidance.

Predict

Say what we think will happen.

Observe

Watch and record what happens.

Compare

Check if it matched our prediction.

Ways we compare

Predict

Observe

Same

Different

Modelling routine

1 I do

Model saying a prediction, then checking it.

2 We do

Compare a prediction and observation together.

3 You do

Children say if theirs matched.
