

Patterns in Materials We Use

We look for patterns in how everyday objects made of the same material, like wood, plastic, metal or glass, are used.

Group

Group objects by their material.

Use

Notice what each material is used for.

Pattern

See patterns in how materials are used.

Materials we use

Wood

Plastic

Metal

Glass

Modelling routine

1 I do

Name objects made of wood and how we use them.

2 We do

Sort objects by material and talk about uses.

3 You do

Children find a pattern in how a material is used.
