

Make a Materials Display

We work together to make a floor or wall display that links samples of materials to images of objects made from them.

Collect

Gather material samples and object images.

Match

Link each material to an object.

Display

Build a floor or wall display together.

Materials we link

Wood

Plastic

Metal

Glass

Modelling routine

1 I do

Model linking one material to an object.

2 We do

Add matches to our class display together.

3 You do

Children link a material to an object.
