

# Patterns in How Things Move

We look for patterns in how objects move, such as balls rolling in a straight line and toy cars moving on their wheels.

## Roll

Balls roll in a straight line when pushed.

## Wheels

Toy cars move on their wheels.

## Pattern

The same movement happens again.

### Ways things move

### Modelling routine

#### 1 I do

Push a ball and name the movement pattern.

#### 2 We do

Test how a toy car moves together.

#### 3 You do

Children find a pattern in how a toy moves.
