

Common Animal Features

We look at familiar animal groups like fish, birds and reptiles, and name the features they share.

Fish

Fish have fins and live in water.

Birds

Birds have feathers and a beak.

Reptiles

Reptiles have dry, scaly skin.

Features we see

Fins

Feathers

Scales

Beak

Modelling routine

1 I do

Name one feature that fish share.

2 We do

Sort animals into fish, birds and reptiles.

3 You do

Children name a feature of one animal group.
