

Sort Plants and Animals

We use a table or graphic organiser to sort images or models of plants and animals into groups by their external features.

Look

Notice features like legs, wings or leaves.

Sort

Put each one into a group.

Organise

Use a table to show the groups.

Modelling routine

1 I do

Model sorting one animal by a feature.

2 We do

Sort plants and animals into a table together.

3 You do

Children sort images into groups by features.
