

# Science as a Human Endeavour

Science is something we all do. We look at the world, notice things, and ask lots of questions.

## In this strand

### Look

We look, listen and feel the world.

### Show

We draw and write what we see.

### Ask

We ask about what we see.

### Learn

We find out new things.

## Big idea

**We look closely and ask questions to learn about the world.**

## Words we will use

look

listen

touch

see

notice

ask

wonder
