

Practice: Star Charts & Symbols

Each star stands for one. Count the stars and answer.

Name: _____ Date: _____

 **Worked Example**
One star = one sunny day. A row with 3 stars means 3 sunny days.
More stars means more days.

Q1. If one star = one day, 3 stars means how many days?

Q2. A row has 5 stars. How many does it show?

Q3. Row A has 3 stars, Row B has 5. Which has more?

Q4. How many does each star stand for?

Q5. Name a symbol you could use on a chart.

Q6. 4 stars and 2 more stars make how many?

Q7. Does a row with fewer stars show more or less?

Q8. Why do we keep stars in a straight row?
Explain.
