

## Practice: Measuring on Country

Explore how measurements are estimated and compared. Answer using comparing words.

Name: \_\_\_\_\_

Date: \_\_\_\_\_

 Worked Example

Two rock holes store water. The bigger rock hole holds more — that is comparing capacity.

Q1. Which attribute do animal tracks show?

length or mass

\_\_\_\_\_

Q2. A deep rock hole or a shallow one — which holds more water?

\_\_\_\_\_

Q3. Seasons are compared using which attribute?

duration or capacity

\_\_\_\_\_

Q4. Which is longer: a short track or a long track?

longer = \_\_\_\_\_

Q5. A big carrying vessel or a small one — which holds more?

\_\_\_\_\_

Q6. Order least to most water: rock hole, cupped hands, carrying vessel.

\_\_\_\_\_

Q7. Name one attribute you can compare on Country.

length / capacity / duration

\_\_\_\_\_

Q8. Why compare the length of animal tracks?

Explain.
