

Practice: Shapes in String Games

Look at the shapes string can make. Name, compare and sort them.

Name: _____

Date: _____

 Worked Example

In string games like Karda, the string forms triangles and diamonds.
We can name, compare and sort them.

Q1. A shape with 3 straight sides is a ____.

Q2. Are string-game lines straight or round?

Q3. A diamond shape has how many sides?

_____ sides

Q4. Can string make a triangle?

yes / no

Q5. Name one shape string can make.

Q6. String games help tell what: stories or numbers?

Q7. Which has more sides: a triangle or a diamond?

more = _____

Q8. How could we sort the shapes the string makes?

Explain.
