

Practice: Seasonal Calendars

Answer about seasonal calendars and how long each season lasts.

Name: _____

Date: _____

Worked Example

A seasonal calendar may show six seasons. A wet season and a dry season can last different numbers of months.

Q1. Seasons are read from which of these: nature or clocks?

Q2. Do all seasonal calendars have exactly four seasons?

yes / no

Q3. Can seasons last for different lengths of time?

yes / no

Q4. Name one sign that a season has changed.

plant / animal / weather

Q5. A season lasting 4 months or 1 month: which is longer?

longer = _____

Q6. Which attribute of time do seasons show: duration or mass?

Q7. Order shortest to longest: a day, a season, an hour.

Q8. Why might two seasons have different durations?

Explain.
