

Practice: About How Long?

For each event, choose the closest unit: hour, day, week, month or year.

Name: _____

Date: _____

Worked Example

The sun rising, falling and rising again takes about a day. Walking to school takes less than an hour.

Q1. Brushing your teeth: closer to a minute or a day?

Q2. Sleeping at night: closer to an hour or a week?

Q3. A school holiday: closer to a day or a week?

Q4. One birthday to the next: closer to a month or a year?

Q5. Eating lunch: closer to an hour or a month?

Q6. The sun rising, falling and rising: about how long?

Q7. Growing from a baby to a child: hours or years?

Q8. Why is walking to school closer to an hour than a day?

Explain.
