

Where plants and animals live

Name: _____

Date: _____

WORKED EXAMPLE

A garden is a place where living things live. Bees visit the flowers, worms dig in the soil, and birds land to look for food.

Q1

Circle the places where animals live: pond, zoo, garden, moon.

Q2

Where would you find a frog? Tick one: a pond ☐ a bedroom ☐

Q3

Draw an animal you might see at the zoo.

Q4

Draw a line to match: duck, lion, worm — garden soil, pond, zoo.

Q5

We keep some animals in our _____, like a pet cat or dog.

Q6

Name one animal you might find in a national park.

Q7

Write two places near you where plants grow: _____ and _____.

Q8 CHALLENGE

Pick a place: a pond, a garden or a zoo. Draw it. Show two animals and one plant that live there.
