

Making a habitat diorama

Name: _____

Date: _____

WORKED EXAMPLE

A frog lives at a pond. In a diorama we add water so it can swim, reeds to hide in, and rocks for shelter. Each feature helps meet a need.

Q1

Look at the animal's home. Circle what it needs: food · water · a toy car.

Q2

A rock can give an animal shelter. Tick one: yes ☐ no ☐

Q3

Draw a diorama box. Add a plant or animal and one thing it needs.

Q4

Draw a line to match the feature to the need:
water, soil, rocks — a drink, roots grow, shelter.

Q5

The _____ in a garden diorama holds water and food for the roots.

Q6

Name one feature you would add to a diorama for a fish: _____.

Q7

Pick an animal. Write one feature its home needs: _____.

Q8 CHALLENGE

Plan a diorama for a plant or animal you choose. Draw its place and label two features. Say which need each feature helps meet.
