

Caring for Country

Name: _____

Date: _____

WORKED EXAMPLE

First Nations Australians have cared for the land, water, plants and animals for a very long time. They take only what they need and look after Country so all living things stay healthy.

Q1

Circle the living things we can care for: animals, plants, trees, a plastic bag.

Q2

Caring for Country keeps living things healthy. Tick one: yes ☐ no ☐

Q3

Draw one way you can care for a living thing, like giving a plant water.

Q4

Draw a line to match: plant, animal, river — water to grow, food, keep it clean.

Q5

We take only _____ we need, so there is enough for other living things.

Q6

Name one way you can care for an animal near your home: _____.

Q7

Look at the picture of Country on the lesson slide. Draw one living thing you can see and one way to care for it.

Q8 CHALLENGE

Choose an animal or plant that lives on the land, in water, or in the air. Draw where it lives and write two ways we can care for it and its home.

First Nations content is drawn from online sources as an introductory attempt — apologies for any misalignment with Aboriginal and Torres Strait Islander knowledge.
