

Looking After Pets and Plants

The jobs we do to care for them

Feeding

Watering

Cleaning

Keeping safe

CAN YOU SPOT?

Which job is for a pet, for a plant, or for both?

TEACHER GUIDE **Big idea:** Living things depend on us for care. Pets and plants need feeding or watering, cleaning, and keeping safe.
Ask: What job does each picture show? Is it for a pet, a plant, or both? How do you help care for a living thing?
