

Where plants and animals live

BIG IDEA

Plants and animals live in many different places. Each place gives them the food, water, air and shelter they need.

Places living things live

Our homes

Ponds

Gardens

National parks

Zoos

Look closer

At a pond

Frogs, ducks and fish live here

In a garden

Butterflies and bees visit the flowers

At a zoo

Animals from faraway places are kept safe

TALK ABOUT IT

Walk around the school garden or look out the window. Ask: What plants and animals live here? What does this place give them so they can stay alive?
