

Food and Fibre

Why we care for plants and animals

Fruit & Veg

Eggs & Milk

Cotton

Wool

CAN YOU SPOT?

Where does each one come from — a plant or an animal?

TEACHER GUIDE **Big idea:** We grow and care for plants and animals for food and fibre — the things we eat and the things we wear.
Ask: Where does each one come from — a plant or an animal? What did you eat or wear today? Who grows it?
