

Making Models of a Home

Name: _____

Date: _____

WORKED EXAMPLE

We create models of the place a plant or animal lives, using recycled objects, modelling clay, toys or drawings. Our model shows the food, water and shelter it needs.

Q1

Circle materials for a model: clay, recycled boxes, toys, thin air.

Q2

Tick one: A model can show where an animal lives [] or its birthday [].

Q3

Fill the gap: A good home model shows food, water and _____.

Q4

Match: frog, bird, fish -- nest, pond, water.

Q5

Draw a plan for a model home for an animal. Label two parts.

Q6

Build a small model home from recycled things. Bring it to share.

Q7 CHALLENGE

Choose an animal. Write what its home model would need to include.

My model needs: _____
