

Showing Seasons Change

Name: _____

Date: _____

WORKED EXAMPLE

We represent seasonal changes of plants using sequential drawings, calendars or digital photographs. Putting them in order tells the story of how a plant changes.

Q1

Circle ways to show change: drawings in order, a calendar, photos, a whisper.

Q2

Tick one: A plant can look different in each season [] or always the same [].

Q3

Fill the gap: We can draw a plant in _____ to show the seasons.

Q4

Match: spring, summer, autumn -- falling leaves, flowers, green.

Q5

Draw the same plant in three seasons in order.

Q6

Watch a plant near home over time. Draw how it changes with the season.

Q7 CHALLENGE

Draw a tree in two seasons. Write which seasons you chose.
Seasons: _____ and _____
