

Sharing What We Find

Name: _____

Date: _____

WORKED EXAMPLE

We write and create texts to share our observations, findings and ideas. We use everyday words and scientific vocabulary, and share with pictures, models and words.

Q1

Circle ways to share findings: words, labelled drawings, a model, a secret.

Q2

Tick one: A label helps others understand our drawing [] or hides it [].

Q3

Fill the gap: We use everyday and _____ words to share our ideas.

Q4

Match: word, drawing, model -- build, say, label.

Q5

Draw a finding and add two labels to share it clearly.

Q6

Share a finding with your family using a drawing. Bring it to class.

Q7 CHALLENGE

Write one science word you could use to share a finding.

My science word: _____
