

Earth and Space Sciences

Exploring our sky, weather and seasons — and how they change from day to day.

Australian Curriculum v9.0 • Year 1

What we'll explore

1 Day and night

Notice how the sky changes from morning to daytime to night.

2 The Sun and its warmth

The Sun gives us light and heat that we can feel each day.

3 Watching the weather

Observe sunny, cloudy, rainy and windy days around us.

4 The four seasons

Summer, autumn, winter and spring each bring their own changes.

5 Changes affect our day

See how weather and seasons change what we wear and do.
