

First Nations Time & Weather

How weather and seasons explain when things happen

Seasonal Calendars

Star Knowledge

Weather Signs

Nature's Cycles

CAN YOU SPOT?

What clues in nature tell us when something is about to happen?

TEACHER GUIDE **Big idea:** First Nations peoples use weather patterns and the seasons to explain when things happen, following their own seasonal calendars. Verify with local First Nations sources.

Ask: What might each sign be telling us? How did people know when things would happen before clocks? What seasonal signs can you spot?
