

First Nations Weather Knowledge

How First Nations peoples read the land and sky

Plant Signs

Animal Signs

Sky & Stars

Many Seasons

CAN YOU SPOT?

What signs in nature tell us the season is changing?

TEACHER GUIDE **Big idea:** For a very long time, First Nations peoples have read the land and sky, using changes in plants, animals and stars to know the seasons. Verify with local First Nations sources.

Ask: What signs can you see in each photo? How might people know a season is changing without a calendar? What signs can you spot where you live?
