

Daily & Seasonal Changes

What changes around us?

Day & Night

The Sun

Weather

Seasons

CAN YOU SPOT?

When would you see each one — in the day or at night?

TEACHER GUIDE

Big idea: The world around us changes every day and across the seasons — day and night, the Sun, the weather and the seasons.

Ask: When would you see each one — day or night? What changes can you notice today? What changes with the seasons?
