

Choosing How to Measure

Picking the right measure

Plant growth

We use blocks to measure how tall a plant grew.

How far

We use paces to measure how far it moved.

How much

We use cups to measure water or sand.

Suggest and choose

We pick the measure that fits the job.

TEACHER TALK - WHICH MEASURE?

Ask children to suggest types of measurements for a task, such as using blocks to measure plant growth or paces to measure how far an object moved.
