

What Is an Observation?

Name: _____

Date: _____

WORKED EXAMPLE

An observation is something we notice using our senses. We can observe by seeing, hearing, touching or smelling safely. We explore this through guided discussion.

Q1

Circle the senses we observe with: eyes, ears, hands, wheels.

Q2

Tick one: An observation is what we notice [] or what we guess [].

Q3

Fill the gap: We use our _____ to notice sounds.

Q4

Match: eyes, ears, nose -- smell, see, hear.

Q5

Draw something you observed today. Label the sense you used.

Q6

Observe something at home with two senses. Tell your class what you noticed.

Q7 CHALLENGE

Write one thing you can observe with your eyes and one with your ears.

Eyes: _____ Ears: _____
