

Different Ways to Investigate

Ways to find things out

Look closely

We observe with our eyes and other senses.

Test it

We try something and watch what happens.

Sort it

We group things to see what is the same.

Ask and talk

We share ideas in a guided discussion.

TEACHER TALK - MANY WAYS

Through guided discussion, explore different ways to investigate a question – observing, testing, sorting, or asking. There is often more than one good way.
