

Following Investigation Steps

Name: _____

Date: _____

WORKED EXAMPLE

We follow the steps in a guided investigation to find out how different objects move when they are pushed or pulled. We do each step in order and watch what happens.

Q1

Circle the steps in order: get ready, push, watch, tidy up.

Q2

Tick one: We do the steps in order [] or in any order [].

Q3

Fill the gap: We _____ or pull each object to see how it moves.

Q4

Match: get ready, push, watch -- look, collect, move it.

Q5

Draw an object being pushed. Draw an arrow to show how it moved.

Q6

Push and pull a toy at home. Tell someone the steps you followed.

Q7 CHALLENGE

Write the first step you would do to test how a ball moves.
First I would: _____
