

Sorting into Groups

Name: _____

Date: _____

WORKED EXAMPLE

We use graphic organisers to sort data into groups, such as plants and animals, or objects around the home that need a push or a pull force to work.

Q1

Circle groups you could sort into: plants and animals, push and pull, red and loud.

Q2

Tick one: A door handle usually needs a pull [] or a song [].

Q3

Fill the gap: We use a graphic _____ to sort things into groups.

Q4

Match: dog, tree, ball -- push it, plant, animal.

Q5

Draw two groups. Sort four objects into the right group.

Q6

Sort home objects into push and pull. Tell your class two of each.

Q7 CHALLENGE

Sort three home objects into 'push' and 'pull'. Write one in each.

Push: _____ Pull: _____
